Re: LightSquared modification (SAT-MOD-20101118-00239)

To Whom it may concern:

Please do not fast track LightSquared without unequivocally demonstrating that there is no interference to GPS.

Given the widespread usage of GPS, and it's use in commercial aviation, it's absurd that any person or government entity would even consider allowing LightSquared's service on an adjacent radio frequency.

Sincerely,

A handwritten signature in blue ink, consisting of two stylized, vertical, slightly curved strokes that resemble the letters 'R' and 'R' or 'M' and 'M'.
